## AROUND THE TOWN

Mrs. Conrad arrived from Calgary on Saturday last.

Mrs. Miller of Calgary is visiting her mother, Mrs. Garner.

Mrs. G. M. Galdes went to Calgary for a few days visit last Thursday.

The first issue of the Trochu Tribune was received by us this week and by all appearances it will be a big factor in the life of Trochu. We wish them every success.

### Electric Lighting Shelved

The Council held a special meeting on Monday night to consider electric light matters and the early closing by law. Mayor Atkins, Councilors St. Clair, Shantz, Oliver, Moyer, Morrison, Wrigglesworth, and Sec. Reed were present.

St. Clair-Shantz—That Bylaw No. 28 re early closing of business places be given its first and second reading. —Carried.

Shantz-St. Clair—That we lay over for future consideration the electric light proposition and that we instruct the clerk to write Mr. Maxwell for an approximate estimate for the cost of a sewerage system for Didsbury.—Carried.

The necessity of instructing the police in his duties was discussed by the Council and was left in the hands of Const. St. Clair who consented to take charge for the present.

The meeting then adjourned.

### Death of J. W. Spring

The people of Carstairs were startled on Tuesday to hear that J. W. Spring, the well known farmer living about five miles east of town, had accidentally shot himself, death resulting instantly. It was about noon when the accident happened. It seems that he saw a coyote and, taking his rifle, stepped outside with it to get a shot at the animal. As he did so it is supposed that he slipped and fell. His wife, who was the only person in the house, heard the report of the gun and went to see what had happened. She found him on the ground with the gun near by. A bullet from the gun entered about the nose and taking an upward and backward course. Being a soft-headed bullet had torn the upper part of face and front part of his skull almost away. A coroner from elds was summoned and in company with Dr. Laidlaw went out to review the remains. He did not consider it necessary to hold an inquest. Mr. Spring was a native of Victoria, Vancouver Island, to which place the remains will be taken. He was well liked by every one and the sympathy of the entire community goes out to the bereaved wife in this sudden saddening of her life. Mr. and Mrs. Spring has been here something over a year and having built a home were contented with the conditions here.—Carstairs Journal.

### A Profitable Partnership

A father with a view to encouraging his daughter, aged 20, to purchase a Canadian Government Annuity, so that she may have an absolutely sure income of \$500 a year so long as she may live from and after the age of 55, offered to contribute \$25 a year for this purpose if she would from her earnings contribute the annual premium necessary to secure the said annuity, an offer which the daughter readily accepted on ascertaining how small an amount she would be required to pay. She found that by a saving of \$2.27 a month, in addition to the \$25 a year (or \$2.09 a month) to be paid by her father, the Annuity of \$500 would not only be secured, but that it would be paid for 10 years, in any event so that should she die before the 10 years expired the Annuity would be continued for the remainder of the term to such a person as she might name, thus insuring a positive return of \$5,000, but, as has been said with the proviso that should she survive the 10 years the Annuity would be continued to herself so long as she might live. Should death occur before 55 all that had been paid in with 55 per cent compound interest would go to her heirs. It is certainly a most attractive investment, and other fathers or mothers desiring to set so excellent an example to their children of any ages may ascertain full information on the subject by applying to their postmaster, or direct to the Superintendent of Annuities, Ottawa, to whom all letters go free of postage.

## VOTE ON THE VETO BILL

SECOND READING OF THE BILL WAS PASSED

**Debate on Great Constitutional Reform Occupies Four Days—Passed Second Reading by a Majority of 125—Opposition Leaders Are Drafting Elaborate Series of Amendments.**

London.—Four days of the most un- inspiring debate ever given to a measure involving a great constitutional reform came to a conclusion when Premier Asquith applied the closure, and a second reading of the veto bill was passed by a majority of 125, the vote being 305 to 243.

Prior to this the house took a decision on an Asquith-Chamberlain amendment, with a majority of 131 against it.

The figures on the veto bill were greeted with prolonged cheers, after which the bill, on the premier's motion, was committed to a committee of the whole house for this stage, which was likely to be deferred for some time to enable the government to dispose of financial legislation.

The opposition leaders are drafting an elaborate series of amendments. Mr. Chamberlain's amendment, which was defeated, was moved recently on behalf of the opposition. It declared that the house would not accept the introduction of a bill which, while reforming the composition of the house of lords, would also confer

penal powers as a second chamber, but declined to proceed with a measure which placed all legislative and executive authority in the hands of a single chamber, and offered no safeguard against grave changes made without the consent of the commons.

The appearance of Mr. Balfour in the debate gave a temporary lull to the otherwise dull proceedings, and although not in the best of form the former premier kept the interest alive, not always, however, to the complete advantage of his party. For instance, expatiating on the value of hereditary principles, he exclaimed: "Let it be our servant; let it no longer be our master." This admission was received with a burst of laughter.

Pending the committee stage of the bill interest will now centre in the expected production next week of Lord Lansdowne's bill.

Lord Hugh Cecil, member for Oxford University, drew the jeers of the Nationalists by declaring that the historic motto of the veto bill was "letting themselves off with this bastard republic," which he said would be constituted if the veto bill passed.

**WESTERN CANADA WATERWAYS**

C. A. McGrath Gives Some Information on Western Conditions to Montreal Canadian Club

Montreal.—"Trade rivals, we and our neighbors to the south, must be in the highways and byways of this world, and our water powers will be the key to our future," declared Chas. A. McGrath, M.P. for Lethbridge, Alberta, addressing the Canadian club on western water questions.

Mr. McGrath said: "In the West we are running mad. I believe, in the growing of wheat and our farmers are distributing their energies as they should do. The value of irrigated lands is that they make crop farming impossible."

The great menace of the West, the speaker said, was that water irrigation it would be called upon to carry in the future it was a question of where would the cost of providing for domestic uses and the work of providing for it be scientific methods, not to be delayed.

**TO CELEBRATE KING'S BIRTHDAY**

A Number of Dates Arranged on Which Fire Salutes

Ottawa, Ont.—The Canada Gazette will contain a despatch from Downing street, stating that it is the wish of his majesty that his birthday should be officially celebrated in the Dominions beyond the seas on the actual date of the anniversary, June 3.

Another despatch fixes the following dates for fire salutes on the anniversary of the birth, accession and coronation of the reigning sovereign, birthday of the consort of the reigning sovereign, and birthday of the queen mother, on which days a royal salute be fired at noon from all majesty's ships of war, and from forts and batteries from which triumph salutes are usually fired.

**Twenty Years for Bill Miner**

Gainesville, Ga.—George Anderson, alias "Old Bill" Miner, was given a prison sentence of twenty years for the murder of George Hanford and Chas. Hunter, sentenced to fifteen years each here recently for robbery.

Anderson placed no plea, but was heard the judge for not imposing heavier sentences.

Anderson pleaded not guilty, but Hanford and Hunter pleaded guilty and turned state's evidence. They and Anderson were leaders of the gang which was originated at Pinta with the avowed purpose of committing a train robbery in this state. Anderson is 55 years old.

## FISK SENTENCED TO BE HUNG

Kept Nerve for a Time But Broke Down Later on and Wept Like a Child

Calgary.—John Fisk was found guilty of the murder of Tucker Paach, June 21, and sentenced by Mr. Justice Stuart to be hanged on April 18. Fisk persisted in the denial of the crime and kept his nerve when in the dock but broke down when he left the room. He sent for a minister after returning to the barracks.

Mr. Nolan has no statement to make, but intimates that the fight for the life of his client has not ended yet, and something may be done later.

It was the evidence of Jones that convinced the jury. The jury began final deliberations at 9:30, after three-quarters of an hour discussion they returned, asking to have the evidence of Jones read to them. His evidence was that he had seen Fisk and another man drive towards the river on the morning of May 21 which corroborated the evidence given by the other witnesses.

"We find the prisoner guilty, with a recommendation to mercy," was the announcement of Ald. Magnus Brown, the foreman, after the men had been seated in the courtroom.

"Are you agreed on this verdict?" asked the clerk of the court.

"We are," replied the jurors jointly.

A pause; a deep dead silence.

"John Fisk, stand up," said the judge.

The prisoner at the bar stood up, and drummed his hands on the rail of the dock.

"You have been found guilty by six of your own countrymen of the murder of Tucker Paach, and of the murder of his wife."

In a voice that did not express the nervousness he showed, Fisk said: "Nothing more as I stand here is true to my knowledge, and I was never guilty. I never was with that man, nor with your brother."

"Well, I have nothing to say," said the judge, "except to urge upon you to keep your nerve, and to keep your nerve, that may happen hereafter or any mercy. The prerogative of mercy is accorded to you."

"I am, I can simply urge you to—but I have no alternative but to stand before the law, and I declare I must prosecute on you. I would urge you to spend the time which now give you in preparing for your end."

"The sentence of the court is that you be taken from hence to the police barracks at Calgary."

The sentence of the court is that you be taken from hence to the police barracks at Calgary. The sentence of the court is that you be taken from hence to the police barracks at Calgary.

**U. S. ON BRINK OF WAR**

Mr. Hysterical Hobson in the United States Senate Delivered a Sensational Address

Washington, District of Columbia.—That Japan will never permit the United States to complete the Panama canal was the declaration of Hon. sensitive Hobson of Alabama today in front of the United States Senate.

White House.—Hobson gave an unqualified endorsement to the statement of Sir Frederick Villiers, the famous British war correspondent, that the Americans are engaged in the brink of war with Japan.

Every well informed diplomat and every army and navy man in the United States, Representative Hobson said, knows that war with Japan is inevitable and that the country is unprepared for the struggle. It is not to be thought for one moment that Japan will let up on Japan's gateway to the Pacific, now being constructed on the Isthmus of Panama.

Mr. Hobson also declared that the United States would find no friends in Europe until the war had begun, and that many would rejoice in our predicament.

**The Outline of the Home Rule Bill**

London.—Augustine Birrell, chief secretary for Ireland, speaking at Oxford recently, indicated that the government's Home Rule for Ireland bill will be on the lines of Gladstone's second home rule measure, subject to modifications that time has shown will be wise.

He said that the government is now engaged in an enquiry into the financial position of Ireland preparatory to drafting Home Rule.

**Gruiting to Become Land Owners**

St. Petersburg.—In an imperial rescript published, Russian Emperor Nicholas announces his intention to complete his grandfather's work for the emancipation of the serfs by transforming the peasants into not merely free but economically strong land owners.

He said that the government is now engaged in an enquiry into the financial position of Ireland preparatory to drafting Home Rule.

**Will Cost Money to Buy Drinks**

Toronto.—The legislation introduced into the provincial parliament recently to tax hotels on bar earnings over \$40 per day, will mean an increase in the cost of drinks in the parlors.

The increase will affect those drinks for which the consumer is paying at the rate of two for 25 cents. The price will be increased to 15 cents straight.

## DEMAND HIGHER WAGES

MINERS ARE ASKING FOR A SUBSTANTIAL INCREASE

Conference Between Mine Operators and Operatives Being Held in Calgary to Settle the Wage Scale—Men Declare they Will Not Return to Work on the Old Terms—8,000 Miners Are Involved.

Calgary.—The conference between mine operators and operatives now progressing at the city hall seems as if it would resolve into a stupendous struggle over the eternal subject of wages. Because the wages in the mines on this side of the line are substantially smaller than in Montana, and because there is no difference in the conditions, the 8,000 men of Dis-

trict of Columbia are determined to fight to bring the wages at least up to the level of the corresponding branches, and at the present time, in some branches of mine work, the mine operators' wages Alberta and British Columbia are 75 and 80 per cent. lower than in the states across the line, in the corresponding branches, so they say the men.

## PABLO KILLING OWN BUFFALO

The State Has Made a Demonstration, but Has Taken No Action as Yet

Edmonton.—The round up of the remaining 80 buffalo on the Flathead Indian reserve in Western Montana will begin on March 15, according to Howard Douglas, commissioner of the work. Douglas has returned from the States, where he has been making arrangements for the final shipment of buffalo to Wainwright, Alberta park.

The round up will be over before the snow is gone," said Mr. Douglas. "The purpose in beginning now is to enable the riders to track the buffalo with greater ease."

Pablo has now killed 20 buffalo in all. A short time ago some of the Pablo and his men rode out and despoiled the carcasses of four of the worst in the herd.

The sheriff and chief game warden were once sent to arrest them, the purpose being to finally vindicate the state's claim to the buffalo made last year. Nothing has been heard yet of the outcome of the state's action.

The opening up of the reserve to settlement has created the settler on the land and Pablo found himself with prospects of having to pay himself for the loss of his life of destruction of property occasioned by his acts. In view of the responsibility of the state, the settler considers he is only acting in self-defense in forestalling such possibilities and he will prosecute instead of settling with the greatest vigor. "The final shipment," Mr. Douglas states, "will be made by the end of the spring after the round up."

**B. C. IS KEEPING UP THE BARS**

Still Maintains the Act Placing Barriers on All Outside Companies

Victoria, B.C.—The second session of the twelfth legislature of British Columbia has prorogued. The chief measures passed during the session were the amending act providing for the future provincial university and establishing the railway charter by that department instead of securing a separate act of the legislature in each case, as well as framing new legislation for the greater safety of men working in coal mines.

The companies' act was amended by making it slightly less expensive for outside companies to secure licenses to do business in this province. The amendment was made to emphasize in the declaration that it is less expensive to continue to be collected by the general government.

The expenditure of British Columbia for the current fiscal year will be about \$1,000,000. Of this amount, about seven millions will be used in the construction of roads to open up the country for settlement.

**HONORS FOR PEARY**

Promotion, Retirement With a Good Pension and Officially Thanked

Washington, D.C.—The plans of the friends of Capt. Robert E. Peary to secure for him the recognition of his polar achievements progressed rapidly recently when these by a vote of 144 to 34 passed an amended senate bill authorizing the president to appoint Peary a rear admiral.

The original senate bill authorized the president to appoint Peary a rear admiral, and the amended bill amended this so as to authorize the president to place him on the retired list, with the rank of rear admiral, to date from April 6, 1909, and so as to tender Peary the sum of \$25,000 for his expenses resulting in reaching the North Pole.

**PARTY TO PENETRATE ARCTIC**

Police Expedition 40 Days Overdue—Searching for Them.

Dawson.—A dozen mounted men of the Royal Northwest Mounted Police have left Dawson for a long search into the upper arctic circle for a party of men who got lost here, already 40 days overdue from Fort McPherson and Herschel Island. Indians have reported that the missing party left Fort McPherson a week before Christmas. The trip down to Dawson usually takes no longer than 30 days.

The missing party was bringing down mail from whalers and trappers by dog train, and it is feared that they are lost in the barren country where no Indians are wintering this year, because of the unusually severe cold.

## THE SUNDAY SCHOOL

LESSON. XI.—FIRST QUARTER, FOR MARCH 12, 1911.

Text of the Lesson, 11 Kings 15, 25-37. Memory Verses, 32-35 — Golden Text, Rom. vi, 33.—Commemorative prepared by Rev. D. M. Stearns.

The power of the Lord God of Elisha was first seen through Elisha in the dividing of the Jordan, the Lord doing for one man what He had just done for two, and long before for a whole nation under Joshua. It is nothing with the Lord to help with many or few. The power of the Lord is next seen in the healing of the waters of Jericho, then in the stretching of the young man who mocked Elisha, telling him to go up as Elisha had done; after that in the ditches filled with water, for the sake of Jehoshaphat, without either wind or rain.

In the beginning of our lesson chapter we see the same power multiplying the widow's oil until every empty vessel was filled, and she had no more supply and something else.

Now we have in today's lesson the filling of a childless home with gladness by the Lord, and the restoration of a young man by giving him back from the dead.

A great woman of Shunem felt constrained as she saw Elisha pass her house, from time to time ask him to eat bread, and it became his habit to do this. Later she suggested to her husband that they should build a room with a bed, a table, a stool and a candlestick, and he seems gratefully to have done this. Then the question arose in his mind, How can it be any way recompense this love that the Lord has shown to her, that she should no longer favor any one, but at the reminder from Gehazi he decided to do this for her, and the Lord for this favor for her, and, receiving the assurance that it would be done, he completed the room, in which she at first received very unbelievably every need, but as Elisha grew old, she was able to do this for her. We think of Sarah and her unbelieving laughter, and yet in her heart she was sure that the Lord would do this for her. (Gen. xxi, 9-14.) We look forward to Elizabeth and her husband, and the Lord's blessing of the latter (Luke i, 13-20), and yet in these cases it seems to pass also, that the door is closed, and the Lord only be. (Mark v, 30), and the Lord on Jer. xxxiii, 3.

It may have been that the child being born was an idol—we do not know—but one day in the field with the reapers has been found on his mother's knees at noon. She had the little boy on Elisha's bed, and the door was closed, and the Lord only be. (Mark v, 30), and the Lord on Jer. xxxiii, 3.

Railroad passes ain't the power they used to be in politics, and some of us that is active workers feels like we had been kind of hamstrung.

Comfort for the Dyspeptic—There is no ailment so harassing and exhausting as dyspepsia, which arises from defective action of the stomach and liver, and the victim of it is to be pitied. Yet he can find ready relief in Parmenter's Vegetable Pills, a preparation that has established itself by years of effective use. There are pills that are widely advertised as the greatest ever compounded, but not one of them can rank in value with Parmenter's.

Some candidates never find out that a convention is loaded until they blow in it.

## BOWEL TROUBLE MAKES SICKLY BABIES

Bowel trouble is the cause of most of the ailments from which little ones suffer. When baby's bowels are not working regularly illness is sure to appear, but when the bowels are regular the little one is usually bright, active and happy. No other medicine for babies has such good effect on the bowels as has Baby's Own Tablets. They make their action regular, soothe the stomach and promote good health. Concerning them Mrs. Freeman Feener, of Harry's Corner, N.S., writes: "I can heartily recommend Baby's Own Tablets for all the troubles from which little ones suffer. My baby girl was troubled with her bowels and was so small and puny I thought we would lose her. I saw Baby's Own Tablets advertised and began giving them to her and now she is a big, healthy, happy baby. For this I thank the Tablets, and I always keep them in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The hotter the campaign the faster the fat will fry.

## Deranging Him

After the operation, Doctor—"Now nurse, take the patient's temperature."

Patient—(feebly)—"Oh, doctor, do leave me something in my system."—Baltimore American.

The Best Liver Pill.—The action of the liver is easily deranged. A moderate, undue exposure to the elements, over-indulgence in some favorite food, excess in drinking, are a few of the causes. But whatever may be the cause, Parmenter's Vegetable Pills can be relied upon as the best corrective that can be taken. They are the leading liver pills, and they have no superiors among such preparations.

Poverty ain't no disgrace in politics. It's wise—it's defeat.

## MILLION ACRE FARMS.

Strange Origin and Improvement of Australian Merinos.

C. E. W. Bean, of Sydney, has written in an Australian paper of the great sheep industry. His story is in part as follows:—

A century ago, when Australia was a dumping ground for England's scum, a British fleet received from a Spanish fleet a present of merino sheep, at a time when to export merinos from Spain was a criminal offence. The little flock reached Australia, and from it are descended the hundred million merinos which have made Australia great and wealthy, despite her small population.

Vastly improved is the modern merino, for the original of 3 1/2 pounds to a fleece has been raised to 12 pounds, and there are rams in Australia which shear 40 pounds.

Nowadays the good land near the coast is being given over to agriculture, and the sheep are driven back further into the desert. A terrible desert it is at times, where not one green leaf can be seen, when the red dust with which it is covered gets blown away—and only the bare hard bones of the earth are left. Then sheep die by the million for want of the smallest scrap of nourishment, and are sometimes killed by the thousands because it is hopeless to expect to keep them alive.

Then comes the rain, and as if by a miracle the whole land is green again, the sheep come out of all bands and the men who have been nearly ruined, make new fortunes in a few days by selling the enormous overstock of old ewes. Such are the vicissitudes of that strange land, the oldest part of the earth's exposed surface.

Some of the great sheep runs cover a million acres, or about 1,500 square miles. Each run is divided into paddocks, which cover all Australia. The average western paddock contains 100 square miles. If one fence is on the horizon below, the other is over the horizon ahead. You could walk till you died in that paddock without seeing the other end. Last year we have found the fence and died along side of it before it led them anywhere.

Then men may be put in each paddock with a boundary rider—sometimes two, living together. Every day the boundary rider, the boundary rider is expected to be out in his paddock about one day in two he may spot something like a fox or a post. There is probably a time of sleep in mirage on the horizon. Occasionally he cuts through a wing of them. He sees a man, or gets a mail, perhaps, once in three weeks. And yet, the boundary men get to like the lonely life.

Then, there is "the boss," the lord of many acres, a man of strong character and a liberal education, living a life not unlike that of an English country gentleman, in his remote home, but carrying on his work with the ability and keenness of a man who has been trained in business.

The third body of men who live by the sheep industry are the shearers, who work through the country from north to south, making plenty of money and living in a rough way the fat of the land as they pass from one shed to the other. They are a class unlike any other.

## The Policeman's Dangerous Life.

About one in every six London policemen is injured during the year. More than one thousand men were on the sick list from injuries received while on duty, and nearly seven hundred more who were injured off duty. Some of the cases were so serious as to disable the men for a week or more, and these amounted to no fewer than 672. Besides these, there were twice as many injured less severely, who were not placed on the sick list.

The following examples show the multiplicity of dangers to which the police are exposed: 2,304 men were assaulted or injured when making arrests; 102 bitten by dogs; 51 hurt by persons not arrested; 17 injured while dispersing disorderly crowds; 44 hurt, some very severely, when stopping runaway horses; 21 injured when assisting fallen or restive horses; 25 kicked, trodden on, or knocked down by horses; 31 injured (14 very severely) by vehicles when regulating traffic; and 28 were injured when extinguishing fires.

And a further large number suffered injury by their horses falling or throwing them, by cyclists, while riding their own bicycles, at fire drills, by slipping and falling when examining premises, etc., so that the total of injuries while on duty for the year is brought up to 3,310.

## Won by a Word

Sol Gage, superintendent of transportation, recently recommended a man in the Lake Shore's employ for an increase in pay. Mr. Gage and this employee engaged in some correspondence over a technical detail of some transportation regulation. In reply to Mr. Gage's third letter this letter came: "Instead of clarifying the situation, your letter of yesterday serves rather to obfuscate it."

"Any servant of a great corporation who can use the word 'obfuscate' and use it right, deserves more than \$60 a month, and I am going to see that he gets it," says Mr. Gage.—Cleveland Leader.

## SUFFERED 23 YEARS

Constant Sufferer From Chronic Catarrh Relieved by Purgative.

Mrs. J. H. Bourl.

Bourl. I am a D. San Saba, Texas, writes "For 23 years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat which caused frequent attacks of hemorrhage. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhage. I tried many remedies, which gave only temporary relief or no relief at all. I at last tried Purgative, and in three days I was relieved of the bowel derangement. After using five bottles of Purgative, I most cheerfully recommend the use of Purgative to any one similarly afflicted."

For  
WOMEN  
and  
GIRLS

This is the very season of the year when a shoe is put to the severest test to show up what they're made of.

If the 7 points in this cut fail to convince you, drop in and let us put you next to the real thing. We have had a shoe cut in the different places as shown above.

**A Guarantee With Every Pair**

We have sold these shoes for seven years and have yet to hear of the first complaint. There isn't another shoe sold with a record like it. Only sold to one merchant in a town. We happened to be the fortunate ones.

**STUDER & COMPANY**

**ARE YOU THE MAN?**

We want a few men in every locality to sell small tracts of fruit lands; property sells on easy payments. No experience required. We prefer men who will get out and work a few hours each evening among friends. One of our agents made \$105 last week in a town of 450 population. Write us today if you mean business.

**This Feeding Floor Could Be Built in The Fall**

and it would help greatly to preserve the condition of your live stock in the Spring.

Every farmer knows that in the Spring of the year his barnyard is almost bottomless. The live stock mire down into the mud and almost float around—greatly to the detriment of their physical condition.

By building a Concrete feeding floor in the yard, this trouble is done away with.

A Feeding Floor of comparatively small

area and built this Fall, would pay for itself next year. Concrete is the only material that can be used in this way at a moderate cost.

Will you ask for your copy of the book which we have prepared for you—"What the Farmer Can Do With Concrete"? It's free—and, take our word for it, you'll find it one of the most interesting pieces of such literature you ever read. And profitable, too—because it will save you money.
